### GRIP-IT WIRE JOINER

Grip-it is a connector, splice, and tensioner for use on all types of wire. Join or tension wire easily with a Grip-it. Push smooth wire or cable into the ends, leaving at least a two-inch tail to allow for tensioning. Galvanized steel rollers grip the wire as soon as tension is applied in the opposite direction. The Grip-it is non-releasable; simply cut the wire and pull the loose ends through to re-use. Use a special Tension Tool to tension the Grip-it.

ITEM NO.	ITEM PIC	Available Wire Range	Broken Strength
GRIP-IT TYPE1		1.3MM-2.5MM	500KG
GRIP-IT TYPE2		2.2MM-3.5MM	550KG
GRIP-IT TYPE3		3.5MM-5.5MM	700KG

## TEST REPORT

### 1. TEST BEFORE

PRODUCT	PIC.	SPEC.	QTY	TEST Steel Wire DIA.
GRIP-IT TYPE 1		1.3-2.5mm	1	Φ2.0mm
COMPETITOR		1.4-2.2mm	1	Φ2.0mm

### 2. TESTING

PRODUCT	PIC.
GRIP - IT TYPE1	

PRODUCT	PIC.
COMPETITOR	

### 3. RESULT

PRODUCT	TEST CABLE	TEST RESULT	PIC	
GRIP - IT TYPE1	Φ2.0mm	Wire broken at 400KG, product do not damage		
COMPETITOR	Φ2.0mm	Wire broken at 387KG, product do not damage
